

The non-abrasive way to clean your instruments

AN2281 Sterizyme Enzymatic Detergent

Andersen recommends using AN2281 Sterizyme Enzymatic Detergent to prepare instruments prior to sterilization. Soaking instruments with Sterizyme dual enzymatic detergent will remove blood, tissue and protein. Sterizyme is biodegradable, non-abrasive and low-foaming in machine or manual washes.

- ▶ Dual Enzyme formula removes blood, tissue and protein prior to sterilization
- ▶ Non-abrasive and biodegradable- Will not damage instruments!
- ▶ Safe for manual and machine washes
- ▶ Highly concentrated and economical

AN2281 Sterizyme Enzymatic Detergent \$26.50/gal
